Globalement, je considère cet enseignement de bonne qualité. / Overall, I think this course is of good quality.

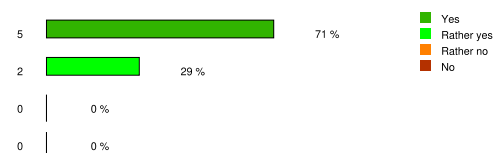

Cet enseignement s'inscrit de façon cohérente dans mon plan d'études. / This course fits well into my study plan.

This course has allowed me to discover novel and interesting domains

Documentary resources necessary to personal study are sufficient and available (bibliography, key references, books in the library, ...)

Supervision and help are adequate

The teacher's comments and assessments are useful

Commentaires / Comments

The only comment would be that the exercises could perhaps only be part of the homework and there would be time in the third lecture to discuss the exercises (after the students already tried to solve it during the week).

I really enjoyed the class. The content is very structured and direction for extra resources was given. The professor is structured and always ready to help. I felt challenged and learnt new things during the course.
